To The Trade:

Once again Chase's seem to be back in the nursery business, and this catalog is less of a "hardware store" bulletin than it has been for the past year or two. We are pleased to list a fairly complete assortment of shrubs, and even a few nice B&B evergreens. Wish we had a few more Broadleaf Evergreens to include—hope to make it next year.

Our growing season here has been one of the finest in our history. Stock has developed beautifully, and it will be a real joy to us to fill your orders; and we believe the quality of the materials will likewise be a joy to you.

We thank you for your patience with us during the war when help was so scarce, and materials so hard to get. The situation here is much better now, and we believe we are again in shape to give you that old "Chase Service."

Yours very truly,

CHASE NURSERY CO.

Coniferous Evergreens

All of these Conifers are grown from cuttings, and transplanted in the fields at least twice, except those marked "Pots" meaning grown in pots of the size specified. These field grown plants are not to be confused with bed or frame grown stock. They have grown at least one and in some instances two years in our full forty-two inch rows where they have had the assiduous care of an Alabama Darky and his friend "The Mule." They have developed character, and will grow readily into dollars for you. They will be puddled in mud as dug and the roots carefully packed in sphagnum moss in ventilated cases for shipment. Potted stock will be shipped in paper pots of the size specified unless we are instructed to shake out.

IOWA, Aug. 14, 1948: "The hedge and other stock we purchased in the Fall of '46 and Spring of '47 was about the nicest we have ever gotten. It has all been used toward our landscaping plans here and it all looks as though it had been planted and grown for five years. The wonderful root systems all your stock had is what undoubtedly made it do so well and put our losses as zero. Visitors from many States at the Iris Meeting here this year complimented us on our hedges and evergreen areas, and we have been so pleased we thought you might like to know, inasmuch as we had begun to think we had made a mistake for so many dealers here were doubtful as to the chances of stock from so far South doing so well in our area."

TEXAS, Jan. 16, 1947: "I have received your shipment of (Cherry Laurel) seedlings and find them to be in perfect condition. I enclose my check to cover all charges as shown on your invoice of recent date."

UTAH, Feb. 3, 1947: "The stock arrived today in excellent condition."
